WONDERFUL CURE OF SORE HANDS

Skin Peeled and Flesh Got Hard and Broke-Blood Flowed in Fifty Places - "Single Box of Cuticura Ended Suffering."

"About eleven years ago I was troubled with sore hands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heartsore. I would feel so bad mornings when I got up, to think I had to go to work and stand the pain for ten hours, and I often felt like giving up my position.

"Before I started to work mornings

for ten hours, and I often felt like giving up my position.

"Before I started to work mornings I would have to wrap every finger up separately, so as to try and keep them soft and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. After doctoring for three years, and spending much money, a single box of Cuticura Ointment ended all my sufferings. It's been eight years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment. Thomas A. Clancy, 310 N. Meatgomery St., Trenton, N. SALT LAKE, Aug. 24.-Albert Frow and V. L. Heickner, the two youths, who upon their return from Camp Otis with the national guard, stole two horses from the Salt Lake Horse and Mule market on West Fifth South, have been captured, Grow being under the surveillance of the juvenile court and Heickner in the hands of the sheriff.

The capture of Helckner, who is 21, is amusing. Returning from the south where he went to dispose of the stolen horses, he this morning, visited the armory. Some of the guards there telephoned to the sher-iff's office and then, afraid that the desperado would escape, surrounded the building, a quartermaster sta-tioning himself on the fence with cocked revolver ready to shoot the culprit as he flew through the win-dow. The sheriff came and the arrest was made, the revolvers were replac-ed and the desperate man removed to the county jail.

Grow came to his home today and was placed in the hands of the sher-iff by his father, who desired to apprehend him.

When Grow and Helckner returned with the national guard from Wyom-ing last week they went to the Salt Lake Horse and Mule market on Fifth South street and hired two horses. Spending the evening at Wander-mere, they afterwards struck out south, stopping at the Wetwash laundry on lower Main street long enough to change the conspicuous chestnut horse they had for a bay one at the laundry.

Armed to the teeth with revolvers belonging to the national guard, the two followers of Don Quixote went south in the probable direction of

Sheriff Sharp sent letters broadcast after them; but no news was re-ceived until it was learned that they had sold their steeds at Lynne Junction for the sum of \$10 each. Both then returned and the capture re

LAGOON BEAR HITS LIVE WIRE

Trixle, one of the little Brown bears that have delighted the children all summer at the Lagoon, is dead. Trixle departed to the happy hunting grounds of the bear family via the business end of a live wire. As a result Pete Sindar, who owned shot's father. Mr. Hendershot said that Boise is Trixie and Teddy, its mate, has a

regular Spiderville grouch. Ever since the bears were taken to the Lagoon they had been allowed to roam around at will in the morning hours when no children were around. Near their cage was a smooth, high telegraph pole. On top of this pole were strung high power wires carrying enough "julce" to destroy all the spiders at Saltair. Trixle and Teddy looked long and often at the pole. They knew that if they ever got to

the top they could see far off to where those mountains were. They held many a counsel of war over the climbing of that pole, but they had never reached the top. Yesterday morning Trixie decided to make one more try. She made her way slowly and surely to the top. When she got there she grabbed that live wire with both paws.

Are you trying to reduce your lighting bill. The hours of lighting are increasing and the long nights will soon be with us. Have you tried the wonderful lamp called the tungsten? They reduce the amount of current 40 per cent and your bills will be in proportion. Don't buy one lamp and expect to get the promised results, put in tungstens wherever you use much light then you will reduce your bills.

A 40 watt tungsten will give you 25 candlepower. Our Edison lamps use 56 watts and only give you 16 candlepower. The tungsten lamp costs more, but it more than makes up its cost in the saving of the current used. Night becomes day when tungstens are used. They are unexcelled for the home or the store in economy and brilliancy. When the sun goes down turn on the tungsten lamp-his only rival For sale at reduced prices.
